PC Assemble (Lab)

SECTION 6 - GROUP 5 (RAM)

Group Leader: Thayaallan Naidu A/L Ganesan A23CS0281

Members:

1. Fathan Auzan Asykur A23CS4007
2. Daffa Tangguh Ananda Kurniawan A21EC4042
3. Avishek Saha A23CS0011
4. Muhammad Harith Haikal bin Mohd Said A23CS0249

During the PC assembly lab, I acquired practical knowledge of computer hardware through hands-on experience. The session comprised a systematic guide for constructing a PC. Working together with my peers in a group environment, we actively participated in the assembly process. This hands-on activity offered me valuable insights into the complexities of hardware components, improving my comprehension of PC construction. By the session's conclusion, the components that were initially disassembled had seamlessly come together to form a functional computer.
